Stub Out 3.0 Valve

ACCOMMODATES EVERY INSTALLATION YOU ENCOUNTER

Whether the space is tight, spacious, upstairs or down, the GrohSafe™ 3.0 valve works. Its compact size and flat back design guarantee a strong, sturdy installation when mounted on a standard 2x4 cross brace, thin-wall or steel construction. Back-to-back installation is a breeze with the smaller valve and the ability to reverse the cartridge on-site. Ease of installation is enhanced with a flush plug to simplify flushing and testing, a retaining ring to secure flush plug and cartridge (sold with trim), and a clearly marked plaster guard for accuracy.

THE FINISHING TOUCH, THE PERFECT TRIM

Start to finish, GROHE exemplifies premium quality and superior performance. The GROHE trim collection includes the cartridge and fits flawlessly on the GrohSafe™ 3.0 valve. These premium all-metal trims are designed for smooth operation with precise temperature adjustment. Concealed mounting plate ensures a clean, flush installation with no visible screws to obstruct its polished appearance.
